Admissions Process

We encourage all prospective families to schedule a tour at their closest Regina Caeli center prior to applying. This is usually the best discernment tool we can offer! If Regina Caeli is definitely for your family, the next step is submitting the application along with a *non-refundable application fee*.

Upon receipt of the application, the local coordinator of education will contact you to schedule a *family interview (both parents must be present)* at the center during class hours. The interview is very important to the admissions process, since Regina Caeli communities depend on awareness of and eagerness for the Regina Caeli model.

After the family interview, you will receive notice of acceptance and whether there is space for your child(ren) in their respective grade levels. Your student(s) will take the Regina Caeli assessments in Math, Language Arts, and Latin in the late spring or during the summer depending upon when admission to

Regina Caeli takes place. These assessments finalize the student's placement and ensure his or her success at Regina Caeli.

We look forward to hearing from you!
